Double Your Impact Today!
Your matching gift will help patients like Patrick conquer cancer.

[Give Now](#)

Dear Friend,

We just received some exciting news! Integra Connect will match the next \$100,000 raised for the Conquer Cancer Dinner online initiative. **You can double your impact!**

Tomorrow, had we been in Chicago, we would have met Patrick Beaugard as we gathered to raise funds to support researchers like his doctor, Kimmie Ng, MD, MPH. Plans changed, but funding cancer research is even more critical than ever.

We're still celebrating Patrick and Dr. Ng - and so can you! **Gifts received will now be matched!** You have a meaningful opportunity to double your impact by helping patients with cancer.

Give today at CONQUER.ORG/FundtheImpact and join me in funding life-saving research for every cancer, every patient, everywhere.

We can still conquer cancer! Thank you for supporting patients and researchers around the world.

[Give Now](#)

Kind regards,

Thomas G. Roberts, Jr., MD, FASCO
Chair, Conquer Cancer

P.S. As my friend and ASCO President Dr. Skip Burris said when the COVID-19 pandemic began, "Cancer research has to continue. Cancer research is essential." **When you give today, your gift will be matched.**

Meet Patrick: A Veteran Conquering Cancer

Dear Friend,

Meet Patrick. He's conquering Stage IV colon cancer.

We had hoped to introduce you to Patrick - a U.S. Marine Corp veteran - and his doctor, Conquer Cancer-supported researcher Kimmie Ng, MD, MPH, at our annual fundraising dinner, on May 20 in Chicago. But, like many important events, it's canceled because of the COVID-19 pandemic.

We're still planning on your support!

And Patrick is still counting on new breakthroughs. That's why we're hoping you'll still join us in supporting patients like him.

Last year at our dinner, donors gave more than \$1 million to fund life-saving research - research that leads to new therapies and treatments helping patients everywhere! And we still need the same support this year through the COVID-19 crisis and beyond, to keep fueling clinical trials and lab research on every type of cancer.

You can still make an impact!

Plans change, but the impact of your gift maintains the progress needed by patients everywhere. Please donate today to cancer research, the newly launched COVID Impacts Cancer Initiative (funding ASCO's response to critical efforts among cancer care providers amid the COVID-19 crisis), or any "area of greatest need."

Will you donate to help patients like Patrick? We can't be together in Chicago this year, but we can still conquer cancer!

Kind regards,

Thomas G. Roberts, Jr., MD, FASCO
Chair, Conquer Cancer

Conquer Cancer-supported researcher Dr. Kimmie Ng and her patient Patrick Beaugard

Dear Friend,

We're days away from what should have been one of the most inspiring nights of the year for our Conquer Cancer community.

Though we can't celebrate patients and researchers at our annual An Evening to Conquer Cancer fundraising dinner, we are still driven by the same motivation: funding cancer research that leads to life-saving breakthroughs and discoveries.

Thanks to our generous donors, we are almost halfway toward raising \$1 million! **We still need your support to meet our goal.**

It's a critical time for patients with cancer. Help us raise the funds needed to continue life-saving research for every cancer, every patient, everywhere.

Please make your donation today at CONQUER.ORG/FundtheImpact.

Though we can't be together, we can still conquer cancer!

Planned Giving Is Having a Moment During the Pandemic

Many fundraisers hesitate to bring up planned giving during the crisis, but experts say that might be a mistake. Some charities have seen a steep increase in bequest commitments and other legacy gifts.
